

SIX PILLARS,
ONE VISION,
PRECISION.

NIDSTM
G R O U P

North India Diesel Spares (NIDS) started in 1980, is committed to providing genuine alternative spares solutions to original CUMMINS® engine parts. NIDS manufactures, trades & exports quality replacement parts for aftermarket CUMMINS® engine applications. With over three decades of experience in this industry, NIDS has sourced & developed replacement parts for CATERPILLAR® engines as well.

One stop spare solution in the industry with complete testing and assembly

- Vast inventory with over 1 million parts in stock
- Specialized division completely dedicated to exports
- Doorstep shipping at minimum lead time
- Flexible & customized shipping options
- Complete in-house testing & calibration machinery
- Parts supplied as per OEM standards

NIDS not only offers engine parts but also has a dedicated unit for service and assemblies of parts with in-house Fuel Injection Shop, Turbo Service Shop and SATS-Special Assembly & Testing Shop for assembling and testing of cylinder heads, water pump, oil pump, gear pumps etc.

GENUINE REPLACEMENTS

NIDS stocks one of the largest inventory of more than 1 million different parts for all range of CUMMINS models- B series, C series, NH, NT series, NT 855, Big Cam, N 8, N 14, L 10, M11, VT series, KT 19, KT 38, KT 50, QSK series.

NIDS also manufactures and offers Tools, Calibration & Testing machines for CUMMINS® engine applications.

TESTING MACHINES

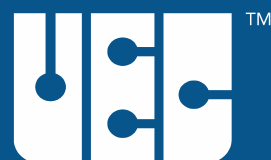

KPK was established over a decade ago as an extension of NIDS to differentiate its quality products and create a brand in the replacement market.

KPK products are passed through a screening process and stringent quality checks before they are dispatched for packaging to ensure 100 % customer satisfaction.

KPK products has become a well established and recognized brand in the CUMMINS® aftermarket industry.

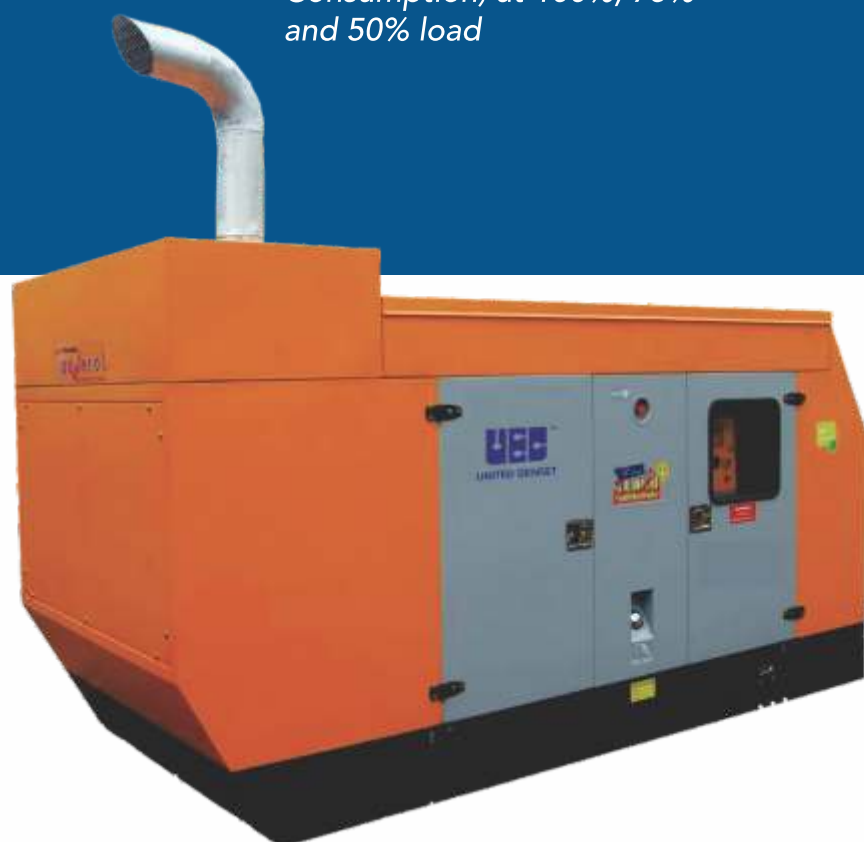

In the hectic pace of today's world, the loss of power translates into losses in time, effort and business. Uninterrupted power is crucial to ensure smooth and continuous operations. This led to the formation of United Gensets in 2002, making it one of the oldest authorized Generator Original Equipment Manufacturer (GOEM) of Mahindra & Mahindra limited, manufacturing 7.5 to 500 KVA MAHINDRA POWEROL Gensets. United Gensets also has the capability to manufacture Gensets upto 2000 KVA.

United Genset has a state of the art manufacturing facility situated in Aurangabad, Maharashtra. United Gensets uses CPCB 2 (Central pollution Control Board) compliant Mahindra diesel engines which ensures lower noise and emission levels.

- *Super silent & compact in size*
- *Class A governing upto 125 KVA*
- *Excellent service network with over 180 dealers*
- *Best SFC (Specific Fuel Consumption) at 100%, 75% and 50% load*
- *Low cost & easy availability of service & spares*
- *Canopy with retreated & retested CRCA sheets to ensure long life & low noise*

**ONE STOP
SOLUTION TO
NEVER STOP**

MAS - Mohite and Shaw Pistons was established in 1999 as a specialised manufacturing arm of the NIDS group making aluminium alloy pistons of all kinds ranging from 50 mm to 300 mm and are used in heavy duty diesel engines, oil engines, compressor, passenger cars, heavy and light commercial vehicles etc. MAS not only has the expertise to manufacture aluminium pistons but has developed in-house facility and capability to manufacture critical Cast Iron components.

Equipped with world class manufacturing unit with latest technology is located at Kolhapur, Maharashtra. The facilities possess everything from the foundry all the way to the inspection and an in-house Hard Anodizing Plant for Thermal Crack Protection.

Due to the lack of power supply and the high acquisition cost of new Generator sets, there is an increasing demand in the industrial and corporate sector for long term leasing of Generators. Ace Diesel Power ventured into power rental business in mid 90's to bridge this gap.

Headquartered in Pune, Ace Diesel Power is one of the oldest company renting high capacity CUMMINS Generators and has collectively leased more than 100,000 KVA till date. Our Diesel Generator Sets are embedded with the best quality soundproof enclosures that assure users of minimal noise level. We have our own load testing facility to test the generator load before dispatch to ensure smooth functioning at site.

Some of the reputed companies who have used our Gensets through our associates are General Motors, Volkswagen, Infosys, IBM, Wipro, Tata-Fiat, Westin, Hindustan Petroleum Refinery and more.

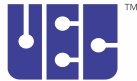

TRULY EMPOWERING YOU

- 24/7/365 Breakdown Service
- Own fleet of trucks for faster transportation
- Qualified and Dedicated team of Engineers and Technicians assuring smooth operations
- Generator set on Wheels – Truck mounted Generators
- Inhouse Load testing facility to test the Generator load
- Quality Service at economical prices
- Complete Spares Support through group companies
- One Stop Solution for all your rental needs

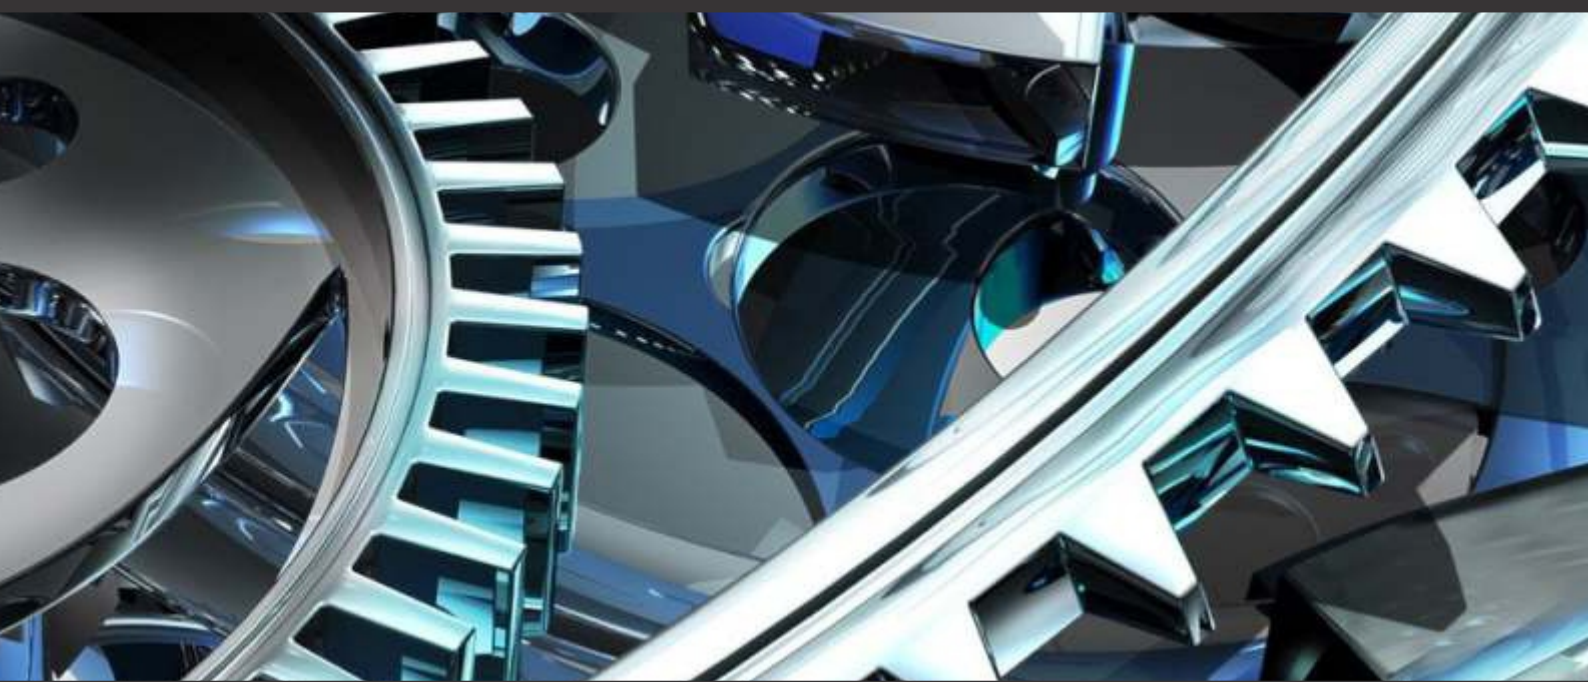

ANKUN GLOBAL CORPORATION

The marketing arm of NIDS group, Ankun Global Corporation was formed to market the entire product & services portfolio of the group. Ankun constantly strives to transform and realign with the changing media scape and provide innovative ideas and setting strategic road-maps. Ankun is a Marketing & Branding solutions provider powered by excellence in creativity, strategy and market intelligence.
